

# Curriculum Starting Points Summer Term 2- 2023

**This half term in nursery we are continuing to follow the children's interest of growing and the local environment.**

The children have continued to show an interest in growing vegetables, so in small groups we will walk them to the local shop to observe and buy some unusual fruit and vegetables.

Children will look at the features of the community and develop their understanding of the local environment.

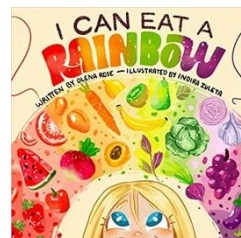

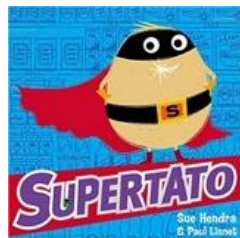

Children will use their senses to explore unfamiliar fruit and vegetables. They will be encouraged to cut, chop, smell and taste.

We will create a fruit and veg shop for the children to role-play their experience of the visit.

The children will have the opportunity to weigh real fruit and veg and count them into bags. They will explore ICT play tills and count money into purses and take on the role of a character.

We will explore printing and mark making with fruit and vegetables.

Children will use images of the local environment to create their own communities with small world toys. This will encourage them to talk about their families and home experiences.

Focus Vocabulary:

- Transport
- Texture
- Green grocer
- Community
- Route
- Travel
- Insert
- Heavy
- Light
- Weighing

Look out for more information on the website and in letters e.g. about Sports Day!
