Reading: read the text below and write three facts about what you have learnt.

The Amazon rainforest is across nine countries in South America.

- It is the world's largest rainforest.
- It is hot.
- There is lots of rain.

There are millions of different types of plants and animals. There are four layers in the rainforest.

The **emergent** layer is the top layer. Birds and butterflies fly between the trees.

The **canopy** is below. There are lots of fruit trees. There are spider monkeys and sloths.

The **understory** is warm and dark. Jaguars hide in the thick plants.

The **forest floor** is very dark. There are lots of dead leaves. Anteaters eat insects.

**The problem is that lots of trees are being cut down.
Animals are losing their homes.**
